Risk Assessment Rating

Risk Rating

Numerical Value Severity x Probability	Descriptive risk rating	Interpretation
16-25	Emergency - Extremely Serious	Risks are unacceptable and immediate action required justifying special maintenance. Activity should be halted and stopped until the hazard is eliminated or appropriate risk controls are put in place.
11-18	Severe and Serious	Activity can proceed but substantial efforts should be made to reduce the risk. Risk reduction measures should be implemented urgently within a defined time frame and it may be necessary to consider suspending or restricting the activity or to apply interim control measures until this has been completed.
6-10	Medium	Activity can proceed but consideration should be given as to whether the risks can be lowered. Control measures must be monitored and reviewed as required to ensure they remain suitable and sufficient.
1-5	Trivial or Negligible	No additional controls are necessary as these risks are considered acceptable. Activity should be regularly reviewed to ensure there is no change to the risk rating and that controls are maintained.
